# TENDER FORM FOR A SUPPLY CONTRACT

**Publication reference:** 027RECC/G/FAO-[BL-5650-03]-No.01-2022

**Title of contract:** Supply and Installation of Fencing Material in Georgia

<Place and date>

**A: Contracting Organization : REC Caucasus, Badri Shoshitaishvili Str. 13, 0179 Tbilisi, Georgia**

---

**One signed** form must be supplied (for each lot, if the tender procedure is divided into lots or for both lots together), together with the number of copies specified in the Instruction to Tenderers. The form must include a signed declaration using the annexed format from each legal entity making the application. Any additional documentation (brochure, letter, etc) sent with the form will not be taken into consideration. Applications being submitted by a consortium (ie, either a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure) must follow the instructions applicable to the consortium leader and its members. The attachments to this submission form (i.e. declarations, statements, proofs) may be in original or copy. If copies are submitted, the originals must be dispatched to the Contracting Organization upon request. For economical and ecological reasons, we strongly recommend that you submit your files on paper-based materials (no plastic folder or divider). We also suggest you use double-sided print-outs as much as possible.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the Contracting Organization that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator.
